COOKIE POLICY WWW.INCALMI.IT

USE OF COOKIES
Clause 13 of Privacy Code

Our website uses cookies in order to improve navigation, generate statistics and make our services as efficient and simple as possible. Cookies are not used for purposes other than these and they are usually installed directly by the owner of the website. By using our website, the user agrees to accept the use of cookies in accordance with the terms of use of cookies specified in this document.

WHAT ARE COOKIES?
Cookies are text files containing information packages that are stored on your computer or on your mobile device each time you visit a site online through a browser. At each subsequent visit the browser sends these cookies to the website that originated them or to another site. Cookies allow sites to remember certain information in order to enable your easy and fast online navigation.

WHICH COOKIES DOES OUR WEBSITE USE?
This website only uses technical and analytical cookies, strictly necessary for the provision of the service. Below are the types of technical cookies used in this site, with a description of their purposes linked to their use.

Navigation cookies	They provide the user with the normal fruition of a website, such as access to a special reserved area.
Analytics cookies	They belong to the category of technical cookies if the data are collected in aggregate form. This type of cookies collect anonymous information about users' activity on the website and the way in which they have reached the website and the pages they visited. Cookies in this category are sent from the Site itself or from third-party domains.
Functionality cookies	They enable navigation and the correct fruition of a website based on selections made by the user, such as the choice of the language or, in the case of e-commerce, the products in the cart.

THIRD-PARTY WEBSITES

When visiting a website you may receive cookies both from the site being visited ("owners") and from websites managed by other organizations ("third parties"). A notable example is the presence of "social plugins" for Facebook, Twitter, Google+, LinkedIn, etc. Such sections of the page visited are directly generated by these websites and integrated into the page of the host website. The most common use of social plugins is aimed at sharing content in the social networks.
The presence of these plugins entails the transmission of cookies to and from all the websites operated by third parties. The management of the information collected by "third parties" is governed by the relevant policies which we ask you to refer to. In order to ensure greater transparency and convenience, below please find the web addresses of the different terms and policies for cookie management.
Our website contains links to other Websites that have their own privacy policy. These privacy policies may be different from the one adopted by us, therefore we do not respond to third-party sites, such as Facebook, Google, Twitter, etc.

GOOGLE ANALYTICS

The site may also include certain components transmitted by Google Analytics, a web traffic analysis service provided by Google, Inc. ("Google"). Again we are dealing with third-party cookies collected and managed anonymously to monitor and improve the performance of the host site (performance cookies).
Google Analytics uses "cookies" to collect and analyze anonymous information about the behavior of use of the website (including the user's IP address). This information is collected by Google Analytics, which processes it in order to create reports for the website managers about the activities on the websites themselves. This site does not use (and does not allow third parties to use) Google's analysis tool to track or collect personal or identification information. Google will not associate your IP address with any other data held by Google or seek to link an IP address with the identity of a user. Google may also communicate this information to third parties if required by law or where such third parties process the information on Google's behalf.
For more information, click here >

Users may selectively disable the action of Google Analytics by installing on their browser the opt-out component provided by Google. To disable the action of Google Analytics, click here >

COOKIE MANAGEMENT
Users can decide whether to accept cookies by using the settings of their browser.
Warning: disabling all or part of the technical cookies can compromise the use of the functionalities of the website reserved for registered users. On the contrary, the usability of public content is still possible when completely disabling cookies. Disabling "third party"cookies does not compromise in any way navigability. This setting can be defined specifically for different websites and web applications. Furthermore the best browsers allow you to define different settings for "owners" cookies and "third-party" cookies.

HOW TO DISABLE COOKIES
Chrome
1. Run the Chrome Browser
2. Click on the menu in the toolbar of the browser next to the url entry window for navigation
3. Select Settings
4. Click on Show Advanced Settings
